I am totally AGAINST this proposed greenhouse being built where they are planning to build it. Having lived in my house for the past 50 years and seeing that the schools have ran over the top of residents in adjacent neighborhoods has frustrated me for many years. I have brought my concerns to both the school board and local staff to no avail. Every year the parking in my neighborhood has been unbearable. Adding this school where they have has been a night mare with both students and staff. This is only going to add to the already intolerable existence of living close to the schools. Maybe it is time for them to add onsite parking instead of new buildings.

Again I am expressing my TOTAL displeasure with this being built where it is planned.
