CA 2017-2 Review of proposed paint colors for Elks Memorial Building...Body

The Parks Department proposes to paint the Elks Memorial Building, located in Historic Lake Sacajawea Park.

The colors will change from white and light blue trim to more earth toned green and slate/black per attached rendering and samples.

The building is considered non-historic, non-contributing so the project is reviewed for its appropriateness with the surroundings and potential negative impact on the park.

Standard 9 of the Secretary of the Interior's Standards: 9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

RECOMMENDED ACTION: Motion to approve the proposed paint colors.
